Technology In Society

Subject/Title Index to Volume 10, 1988

advice, scientific
  from National Science Council of Canada, 165
  (to) governments, 285
  (to) judiciary, 317
  (to) legislative branch, 311
  (to) presidents, 305, 385
aerospace industry, 45
Agricultural Development and Environmental Research in Eastern Europe: Approaches in Czechoslovakia, 339
airbase construction, 123
Airbus Industrie, 58
Alerting Canadians: The Scope and Use of Policy Research by the Science Council of Canada, 165
Australia, macro-engineering perspective, 17
authors, typewriters and, 255

Baker initiative, 336
build-own-operate projects, 353
Brazilian computer industry, 29
Building the Nation's First Coal Gasification Plant, 131

Canada, Science Council of, policy research, 165
coal gasification,
  "Cool Water" plant, 11
  Great Plains, 131
commonsense principle of rationality (CPR), 447
computer industry, Brazil, 29
Concorde, 54
Constitution, 311
control of technology, 205, 447
corporate culture, 245
cost overruns, 88, 159
courts and scientific issues, 317
courts, technology and the, 323
Czechoslovakia, agricultural development, 339

Debt-equity swaps, 360

Economic development, technology and, 433
economic growth, forecasting, 269
Editor's Note: Technology in Society: How a Journal Was Born, 283
engineers, managers and government, 45
environmental reality in the Sahel, 469
environmental research in Eastern Europe, 339
Equity and the LDC Debt Crisis: Equity in Third World Project Financing with Particular Reference to Build-Own-Operate Projects, 353
Europe, managing major projects, 71
European economic scene, 99
European projects, cost overruns, 88
European Space Agency and predecessor agencies, 61
evaluation of progress and technological advance, 425

Failed Paradigms, Neglected Wisdom, and Environmental Reality: An Approach to the Rehabilitation of the West African Sahel, 469
Federal Financing of Large-Scale Engineering Projects, The: New Realities and Their Implications, 5
federal debt and large project financing, 13

Global Cooperation: A Competitive Strategy for the Pacific Basin, 145
Global Infrastructure Fund (proposed), 375
government, advice to, (on) science and technology, 285
gypsies, 457

human behavior in organizing economic activity, 49
human factor in technology management, 233

Implementation of the Brazilian Computer Industry, The: Its Complexity and Potential Impacts, 29
India, industrial development, 395
Industrial and Economic Growth from a Moral Perspective, 267
Introduction to Special Issue: Macro-Engineering: The New Challenge, 1
investment banking, view of macro-projects, 155

Japan, support of macro projects, 375
judiciary, science and technology advice to, 317

law, science, and technology, 311
LDC debt crisis, equity and, 353
Lessons in Managing Major Projects Successfully in a European Context, 71
limits of growth, 270
Lurgi Process for coal gasification, 132

Macro-Engineering: An Australian Perspective, 17
Macro-Engineering: The New Challenge (Special Issue), 1–154
Macro Projects
  Australia, 17
  Brazil, 29
  European aerospace industry, 45
  Negev, 113
  North Dakota, 131
  risk, banking view on, 155
  sustainable, 375
Macro-Project Risk: An Investment Banking View, 155
Major Projects Association (MPA), 71

Managers, Engineers and Government: The Emergence of the Mutual Organization in the European Aerospace Industry, 45
Managing Construction of a Macro-Airbase-project in the Negev, The: A Contractor's Perspective, 113
Management and Control of Modern Technologies, 205
Managing Major Projects in Europe, Lessons in, 71
Material and Nonmaterial Resources, or Why the Gypsies Have No Vises, 457
medicine, modern, 327
Modern Medicine: Perspectives on Harnessing Its Vast Emerging Power, 327
moral perspective, 267

NASA, shuttle policy, 417
National Academy of Sciences, 385
Natural History of the Space Shuttle, The, 417
no-growth futurism, 274

Office of Technology Assessment, 312
Office of Science and Technology Policy, 306
organization culture, technology and, 233

Pacific Basin, 145, 375
Paradoxes and Difficulties in the Evaluation of Progress and Technological Advance: Past and Future, 425
policy judgments, legal, 325
policy, presidential, on science, 305
policy research, 165
power, harnessing power of modern medicine, 327
President's Science Advisory Committee (PSAC), 306
Presidential Science Advising and the National Academy of Sciences, 385
project financing
  equity in, 353
  external, 378
  federal, 5
  federal debt and, 13
  large project, 13
  Third World, build-own-operate projects, 353
project management of major projects
  Airbase, Negev, 113
  European, 71
progress, evaluation of, and technical advance, 425

R&D, India, 395
rehabilitation, West African Sahel, 469
reporters and typewriters, 255
risk, 155
Role of Macro-Engineering in the European Economic Scene, 99
Rom, the, 457

SASOL, 132
Sahel, 469
Science and Technology Advice to Government: To Not Know Is No Sin; To Not Ask Is, 285
Science and Technology Advice in the Judiciary, 317
Science Council of Canada, 165
Science, Technology and Industrial Development in India, 395
Science, Technology and Law in the Third Century of the Constitution, 311
secretaries and typewriters, 255
social institutions, effect on technology development, 205
space shuttle and service concept, 10
space shuttle, quality control, 417
Spanish gypsies, 457
"Style" and Technology, 447
Supporting the President's Need for Technical Advice, 305
Sustainable Macro-Projects, 375
swaps, debt-equity, 360

Taiwan, technology strategies, 185
technology
  and economic development, 433
  and organization culture, 233
  characteristics, 208
  government role in, 187
  (and) industrial development in India, 395
  management and control of, 205, 447
  strategy, 145, 185
  "Style" and, 447
Technology and Economic Development in the Modern Technopolis, 433
Technology and Organization Culture: The Human Imperative in Integrating New Technology into Organization Design, 233
Technology and the Courts, 323
Technology Strategies in National Context and National Programs in Taiwan, 185
technological advance, past and future, 425
technopolis, 433
Third World project financing, 353
tools, use of by gypsies, 457
typewriter, using, 255

Using the Typewriter: Secretaries, Reporters and Authors, 1880–1930, 255

vises, 457

West Africa, 469

Author Index to Volume 10, 1988
